

General Assembly Judiciary Committee
Hartford, Connecticut

Dear Sen Winfield, Rep Stafstrom & Judiciary Committee Members,

I urge that the Judiciary Committee oppose Bill Number SB.16. Legal firearm owners in this state have to pay fees, take a training class, pass numerous background checks, pass the local police application process, then the state police background process. This whole procedure can take months and in some towns years to complete. And now more restrictions are being proposed on the legal gun owners; where they can carry, the manner in how they can carry, more firearm bans, more firearm parts bans, more gun registration, bans on firearms that are decades old, bans on firearm receivers, encouraging police intimidation, increasing police interaction. All these targeted to a group or class of citizens that have been vetted, background checked, fingerprinted, trained, and pay the fees.

Once again, I urge that the Judiciary Committee vote no on Bill Number SB.16.

I appreciate the opportunity for me to submit my written testimony.

Respectfully submitted by,

A handwritten signature in black ink, appearing to read "Jacob Sear", followed by a long horizontal flourish.
